Instructions for Tilted Squares

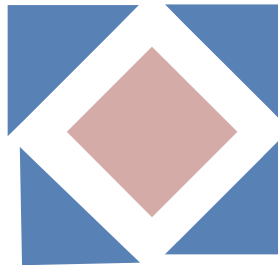

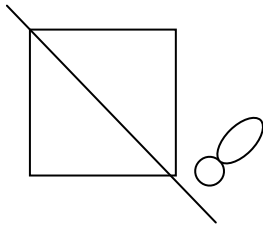

Kit Contains: (Or, make your own kit at home from your stash as follows)

- 20 – 6" squares focus fabric
- 20 – 6" square Fabric A
- 20 – 6" squares Fabric B
- 4 – 3" strips border fabric

For each tilted square block:

Cut 2 matching squares (A or B) on the diagonal. Stitch one long side of each triangle to each side of the focus fabric square. Use a 3/8" to 1/2" seam allowance as the 6" square may not be perfectly accurate.

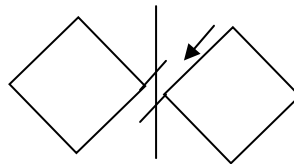

Trim to 8 1/2" x 8 1/2"/

Make 20 – 8 1/2" squares, 10 with fabric A and 10 with fabric B.

Sew in 5 rows of 4 blocks, alternating the A and B blocks.

Note:

The points of the focus fabric will not match perfectly.

Use the 3" strips to sew a border on the four sides of the quilt.
