Wandering Foot Controller – What to Do

“After years of trying many different options but still chasing that controller around the room I found a perfect solution at the local hardware store. I purchased a “Stanley” sticky pad. What a good find. The pedal stays put on my floor (linoleum over concrete). It takes some effort to remove the pad but it doesn't leave any residue. The pad is easy to wash and doesn't lose its adhesive quality.”

How to Square Up a Big Quilt

Today I want to give you a tip that I hope it will help you! When I have to square up a large quilt, I found that using a large card stock or poster board, I can frame each corner and sides of the quilt very well. I keep cutting with a ruler and cutter, but it is the card stock that allows me to frame correctly! And it is much easier.
